GRATIOT LIST IS LARGE ONE

One Hundred and Forty-three Alma Men Listed Under Unofficial First Call.

The greatest of all American lotteries has been played, and hundreds of thousands of men of the best manheed of the United States are now being summoned to appear before draft boards in various sections of the United States to take examination for the army.

Ten thousand five hundred numbers were drawn, each number calling a man from each draft district in the county up to the highest number in each draft district.

Twice the number of men needed from each draft district are to be called for examination, this to insure the number of men needed being secured. All examinations will be held in the offices of Dr. T. J. Carney in Alma, before the examining board, consisting of Sheriff Bradford of Ithaca, Dr. Wheeler of St. Louis

and C. F. Brown of Alma. Gratiot county is called upon to furnish 274 men for service. This means that about five hundred and fifty men will be called for the examination. It may be that more will be called for examination, but only in case there are sufficient exemptions to take over fifty per cent of the total

from those first called. Notices will be sent to those first drawn in the great draft lottery and these men will have five, six and seven days to report for their examination. The notices will indicate the length of time which they will

have in which to report. The list of five hundred and forty eight men from Gratiot county called on the first draft, includes one hundred and forty-three young men of this city, or over one-fourth of the

entire number. Following is the Gratiot list for the first draft in order of liability, but attention is called to the fact that this is not the official list. Efforts

ave been made to make it as correct possible.
